

## Area of Disturbance and Calculation of Review Fees

**Disturbed acreage must be rounded to the nearest tenth of an acre on the NOI and for the fee calculation.** Calculation of review fees for NPDES permit coverage must be exact. Please calculate review fees to be \$100/disturbed acre and pay this amount exactly. **If payment is less than OR more than \$100/disturbed acre, SCDHEC-OCRM will have to ask for a new check for the exact amount. Your submittal package will not be processed when incorrect fees are submitted with your package.** This additional work ultimately delays permit issuance and that is why we request to receive payment for the exact amount. Our database is set up to be exact and will not let staff proceed with anything other than the exact amount.

### Ex. 1

Disturbance = 11.62 acres => Round down and use 11.6 acres for NOI and fee calculation  
Payment = \$1160.00 + \$125.00 = \$1285.00

Payment for \$1250.00 requires SCDHEC-OCRM to request a check for the exact amount.  
Payment for \$1300.00 requires SCDHEC-OCRM to request a check for the exact amount.

### Ex. 2

Disturbance = 3.495 acres => Round up and use 3.5 acres for NOI and fee calculation  
Payment = \$350.00 + \$125.00 = \$475.00

Payment for \$470.00 requires SCDHEC-OCRM to request a check for the exact amount.  
Payment for \$500.00 requires SCDHEC-OCRM to request a check for the exact amount.
